

Skin by Stephanie now offering innovative body and lash treatments

Greenville's leading non-invasive anti-aging skin practice expands services by popular demand

GREENVILLE, S.C., October 19, 2021 – Stephanie McChesney, owner of Skin by Stephanie, is pleased to announce an expanded menu of innovative, non-invasive anti-aging body and eyelash services, along with the addition of associate Danielle Stinson to her exclusive practice.

As part of this growth, the practice long known as Greenville's best-kept skincare secret now offers clients access to the latest cryo thermal-shock body shaping and contouring techniques, plus lash-lifting and brow lamination artistry courtesy of Danielle.

Although Stephanie restricted her offering solely to facial treatments for many years to maintain the high level of customized service that's become the practice's calling card, she knew that the right opportunity to expand had finally presented itself. "After a long search for the right person to help grow the business without sacrificing the personal touch," she comments, "I'm confident that I've found the perfect fit for Skin by Stephanie in Danielle."

The Skin by Stephanie client roster rarely opens up, but with Danielle's appointment the practice is now accepting a limited number of new patients. Call 864-314-2417 to set up a free consultation. For the rest of 2021, Cryo T-Shock treatment packages are 50% off the normal cost of \$1,600 for 8 treatments.
